

# GERRY BLACKMON

Southern California | [blackmongerry@gmail.com](mailto:blackmongerry@gmail.com) | (909) 454-8451 | [GitHub](#) | [LinkedIn](#)

---

## Applications Developed

**Eye Spy** -- *An artificial intelligence based scavenger hunt - group project*

[LIVE GITHUB](#)

- The user is given statistics that we received from the **Clarifai** API, based on a random picture that was chosen from **Flickr**. They were then tasked with uploading a picture to attempt to match the statistics originally given.
- Using **jQuery** and **AJAX**, we were able to contact Clarifai, Flickr, New York Times, and Nerd Quote APIs and dynamically create the page based on results received.
- Used the **Agile methodology** to come up with the idea, and **JSDoc**, **meistertask**, and **Git** to streamline our workflow.

**Tanks** -- *A browser based tank game*

[GITHUB](#)

- Using **jQuery** and core **CSS**, the player is able to move around **HTML** elements in order to interact with each other.
- Takes advantage of **OOP** paradigm in order to create and handle an infinite number of tanks.

**Unity Tanks** -- *The Unity port of my Tanks game*

[GITHUB](#)

- Used the ideas I came up with and worked on from the javascript version, I ported the basics into **C#** and **Unity**.
- Currently working on a **Node.js** server in order to allow multiple players to connect to the same game.

## Education

LearningFuze -- *Three months -- Accelerated Web Development Program*

Crafton Hills College -- *One year -- Studied Computer Science*

West Coast EMT -- *National EMT certification*

University of California, Riverside -- *Six months -- Studied Chemical Engineering*

## Technical Skills

- **Strong**  
Javascript, Node.js, Express, MySQL, jQuery, AJAX, APIs, HTML5, CSS, Amazon Web Services, JSON, Agile Methodology, Firebase
- **Experienced**  
Unity, C#, C++, PHP, React, BootStrap, EC2, Websocket, Adobe Photoshop, Axios, Mongo
- **Tools**  
Debugging (Chrome Dev Tools, Postman) Version Control (Git, Github), MAMP, phpMyAdmin, Task tracking (meistertask, Trello)

## Experience

- **ER Technician**  
2014 - 2018
- **Patient Transporter**  
2013 - 2014
- **Non-Emergency Medical Driver**  
2012 - Current

## Hobbies

- **Video Games**  
Currently playing Battle for Azeroth
- **Movies with my wife**  
Impatiently waiting for Infinity Wars part 2
